

Table of Contents

Chapter	Page Number
1 Introduction	1
2 Computer Evolution and Performance	10
3 Computer Functions and Interconnections	20
4 Instruction Sets	29
5 Data Representation and Arithmetics	33
6 Assembly Language Programming	41
7 Register Transfer Operations	50
8 Cache Memory	59
9 Main Memory	65
10 Processing Unit	69
11 Input / Output Design	78
12 External Memory	85
13 Operating System Supports	88
14 Miscellaneous	94
