

Table of Contents

Chapter	Page Number
1 Algebra of events	1
2 Combinatorial analysis	14
3 Probability models	25
4 Basic concepts	41
5 Random variables	53
6 Discrete distributions	62
7 Continuous distributions	75
8 Joint probability distributions	88
9 Properties of expectations	98
10 Limit theorems	104
11 Queuing theory	107
12 Miscellaneous	113
